Curriculum Vita

MD AHAD ALI (阿里)

Xi'an University of Science and Technology, Yanta Campus, Building 6, Beilin, Xi'an, Shaanxi, China

E-mail: ahadali@qq.com **Phone:** +8613108879110

WeChat ID: MdAhadAli

Professional Experience

Teaching assistant (aug 2020-jan 2021)

Contribution as a Laboratory Teaching Assistant for the " Computer Organization and Architecture".

- Help Professor and Take lecture
- Analysis of student project and result
- help teachers to plan learning activities and complete records.
- get the classroom ready for lessons.

Academic Credentials

Bachelor of Computer science and technology | 2018 - 2022

Yunnan university, Yunnan, China.

Research Experience

Design and Development Learning Management System

The goal of this research is to develop a model for facilitating effective e-learning in universities. The aim is to investigate factors necessary for facilitating effective e-learning.

A China Bangladesh E-commerce platfrom integrating transportation and sales.

The goal of the research is demonstrate the B2B E-commerce platforms Between Bangladesh and China.

Image processing and Data collect on Fish in the water.

The goal of the research is to develop and analyze the motion of the target object in the Water.

Solar powered weather station

Solar-powered wireless weather station by using an ESP32 Wifi Module and few common weather sensors available in the market.

Campus Network Architecture

Yunnan University campus network research and design.

Language Translator App

Language Translator App using IBM cloud service and deploy On Heroku.

Project

- Full Stack eCommerce Web Application.
- Library management system desktop application in python and pyqt5
- Campus network design with Cisco Packet Tracer.
- Application to prevent Dos attack.
- Full-stack E-learning management system Application.
- Music Streaming Web Application
- Surveillance robot with raspberry pi
- Plant Disease Prediction Streamlit application.
- Heart Attack Risk Prediction Using Eval ML (Auto ML)
- Logistic Regression - Machine Learning Application
- Question Generation using Natural Language processing
- Content Management System (CMS) web application.

Technical Skills

- **Programming Language:** C++, Python, JavaScript, Java, C#, Rust, TypeScript, Golang.
- **Programming Tools**: NodeJs, ReactJs, Tensorflow, dotNet, Django, QT, ElectronJs, VueJs, NextJs, NuxtJs.
- **Engineering Software:** AutoCAD, SolidWorks, MatLab
- **Media Software:** Adobe Photoshop, Adobe Illustrator, Camtasia, Audacity, Figma.
- **Office:** Microsoft Office Tools.
- **Data:** SQL, R, MongoDB

Linguistic Proficiency

- English (Advanced)
- Bengali(Advanced)
- Chinese Mandarin (Basic)
- Arabic (Basic)

Extra-curricular activities, awards and achievements

TAETEA Outstanding International Student scholarship (2 times)
best international student award

College student innovation and entrepreneurship competition
This was a team project and we won the first prize.

A China-Bangladesh e-commerce platform integrating transportation and sales
This was a complete project based on E-commerce platform between china and BangladeshI. As a Team Leader I lead this project and we successfully did it and got award..

Intelligent agriculture equipment for Bangladesh and Yunnan mountains in china.
Won the 7th Yunnan "Internet + College student innovation and entrepreneurship completion in Junfa Cup.

Competition for overseas students from South Asia and Southeast Asia
Silver Award.
